

# BEFORE & AFTER PICTURES

## FROM BURN B GONE® PATIENTS

Burn B Gone® Burn, Scar and Wound hydrophilic gel formula soothes and revitalizes burned or traumatized skin and dramatically improves scars like no other product in the world. Burn B Gone® has been successfully clinically tested with double blind studies and used for post surgical recovery, wound care, insect and marine life stings, burns (including radiation, chemical, thermal, laser, steam, razor, waxing and sunburns), acne, age spots, bruising, skin hyper-pigmentation and other similar dermatological issues. Burn B Gone® is registered with the United States FDA for topical skin use.

Made in the USA

*"Over the last several years, I have used Burn B Gone® on my patients after every surgery with amazing results and no negative side-effects. I highly recommend using Burn B Gone® to dramatically repair skin after traumatic injuries and surgical procedures."*

Dr. Robert Joseph, Surgeon, Beverly Hills, California

*"I have successfully field-tested and used Burn B Gone® for extreme sun exposure, wound care, insect and marine life stings, burns and dermatological issues. As a scientist, educator, and parent my tests to date point to one thing: "This product is Amazing Stuff"!!! I know that this product is going to help a lot of people. It may sound like a commercial but after field-testing dozens of biological products over the past 11 years, Burn B Gone® "Plain and Simply Works!!!"*

William D. Gillan, Biologist, Boca Raton, FL
